RE: Don't let KRCC dawdle any longer, we want DEMOCRACY NOW!

Dear Mr. Celeste,

As a KRCC listener, I ask you to please bring the nationally syndicated news program DEMOCRACY NOW to our community radio station.

This request has been repeatedly rebuked by the KRCC station manager, but I believe the time has come to consider the idea with more sobriety.

Certainly you have noticed the population of this city has never been so ill-informed, and the time has never been more critical. While we can blame FOX, MSNBC and CNN, responsibility rests in no small part with NPR as well.

That's where KRCC can come in. If more NPR affiliates such as KRCC carried DEMOCRACY NOW, listeners would hear the stories and angles which NPR is currently choosing to omit. Perhaps NPR can be shamed into resuming the objective reporting for which it has always been respected.

As concerned citizens of Colorado Springs, we plead with deep and sincere urgency that you hold KRCC accountable. DEMOCRACY NOW can do that. Let's join ranks with the stations already airing this highly respected news program. Please Mr. Celeste, take our plea to heart.

Sincerely,
