C C STUDENT PETITION TO REQUEST "DEMOCRACY NOW" ON KRCC

Dear President Celeste,
We the undersigned are students who feel that the corporation-dominated misinformation-monster that is the American Media must be curbed, and we can begin with the college radio station that is ours, KRCC.

We implore you to allow student input into the programming at KRCC. For starters we would like to hear the program DEMOCRACY NOW carried on KRCC. The plan would be to let Amy Goodman's reporting on DEMOCRACY NOW infect NPR's corporate programming with some much needed objectivity.

You've denied the repeated request for DEMOCRACY NOW from students before us, but this student body is not going to take no for an answer. Look where these years of creating an ill-informed American public have led us! Aren't you tired of being surrounded by people who are ignorant about what's happening with the war, with the environment, with the economy, with education, and with injustice? Please join us in demanding responsibility at NPR and KRCC. How dare KRCC war-monger in our name!

If our polite and earnest recommendation is not given credence, we will demonstrate our determination, we will rally and if need be we will occupy. We will be put off no longer. We want our voices heard!

We want truth on the radio. We want an end to corporate misinformation. We want DEMOCRACY NOW!
